2. When user enter details in Personal Details Section of App, And press the Done Button, and move to next stage, and want to change the personal details, But when user again go back to personal details, all details that are enter by user are removed. This the same issue in all sections. It should be saved in user state and can edit as they want. They don't need to enter the all details from A to Z.

3. There is a country and town dropdown menu in Address Section. In Country, I have Select “Pakistan” and in Town, I have Enter “Sheikhupura”. After making complete profile. When I open my profile details in app, The Address Details is **wrong printing** like City, Town, and Nationality. But, when I open an admin portal, State is set to City and City is set to Country. Please resolve this error. Here is the screenshot.

4. After the user registered and make profile on JobGlob App, If they access their profile through jobglob.com website, then

Personal Info Section of Candidate Profile, such as:

- Date of Birth.
- Country.
- Town/City.
- Country of Birth.
- Town/City of Birth

In Badge Details Section of Candidate Profile, such as:

- Badge Expiry Date

All the above mention data are **not fetched from database**. It is blank. You need to fix this error. Here is the screenshot:

The screenshot shows the 'Personal Info' section of a candidate profile on the JobGlob website. The form is titled 'Personal Info' and includes the following fields:

- Name: Eagles
- Gender: Male
- Date Of Birth*: mm/dd/yyyy
- Address*: Alif Town
- Country*: Select Country
- TOWN/CITY*: Select Town/City
- POST CODE*: 39350
- Email*: aeglobeaglesofficial@gmail.com
- Phone*: 03094464009
- Country Of Birth: Select Country
- TOWN/CITY OF BIRTH*
- NATIONAL INSURANCE NUMBER: 123456789

Personal Info Section of Candidate Profile

The screenshot shows the 'Badge Details' section of a candidate profile on the JobGlob website. The form is titled 'Badge Details' and includes the following fields:

- Badge Type: Sample
- Badge Number: 12121212
- Expiry Date: mm/dd/yyyy
- Badge Photo*: Choose file, No file chosen

Badge Details Section of Candidate Profile

5. In Profile Info Section of Candidate, In App, there is no required for Personal Photo and Portfolio video to be uploaded for making profile, but in Website, there is required field for Personal Photo and Portfolio video. Also, Portfolio video just accept video format like mp4 etc. But, it is accepting images format also like PNG. You must have to solve this problem.
